Advance Payments and Deposits

If you are a new customer with U S WEST Communications or have recently moved and need to re-establish service, we may ask for an advance payment or deposit.

Deposits are based on local service and long distance charges. Business customers should call 1 800 603-6000 for information on deposit requirements.

We may require a new or additional deposit if we stop your service because your payment is late. There's also a charge to begin service again.

We may waive the deposit requirement for your U S WEST Communications telephone service, if someone with established credit with U S WEST Communications, is willing to guarantee payment of your bills.

Your Deposit Will be Refunded

With interest after 12 months if your phone bills are paid on time. If you discontinue service during this time, the deposit and interest will be applied to your final bill.

Consumer Tips

As a U S WEST Communications customer, you are protected by our company's policies and by the state and federal regulations that guide the way we do business. There are also things you can do to help protect your privacy and safety. Some consumer guidelines are listed here:

You Cannot Use an Answering Machine On a Party Line

That's because answering devices cannot give up a line in an emergency. They also disrupt service for everyone on the party line.

Pay Per Call Service Information

"976" and "900" Numbers

What They Are

Private companies offer a variety of informational programs using phone numbers that begin with "976" or "900." There is usually a charge for calls to these numbers. Charges for "976" calls appear on your monthly U S WEST Communications telephone bill. Charges for "900" calls appear on the Interexchange Carrier page of your bill. These calls may also include a long distance charge. Calls for which the charge is one dollar or more must contain an introductory disclosure message specifying types of charges, time necessary to complete the call, and an option to disconnect without charge at the end of the introductory message.

The price and content of "976" and "900" services are the responsibility of the companies that provide the information.
Call 1 800 879-2455 for more information.

How To Block Calls to "976" and "900" Numbers

Consumer Tips

Your Privacy Is Important

We make every effort to protect your telecommunication services from unlawful wiretapping or other illegal interceptions. Customer service records, credit information, and related confidential personal account information are fully protected.

Illegal Wiretapping

It is a crime under federal and state laws for any person to wiretap or otherwise intercept a telephone call unless that person has first obtained a court order or the consent of **all parties** participating in the call. The penalty for illegal wiretapping can be imprisonment and/or a fine.

We May Listen to Calls Between You and Our Employees

It's one way our managers can make sure you're receiving prompt and courteous service and accurate information. These calls are randomly selected and are not recorded. They include calls to our repair bureaus, customer service numbers, directory assistance and "0" operators.

If You Receive Unwanted Sales and Survey Calls

Take the Following Steps

1. Be skeptical of offers that sound too good to be true; they usually are.
2. Report companies using questionable sales practices to the Better Business Bureau or your state attorney general's office.
3. Disconnect computer-generated calls by hanging up your telephone for 12 to 15 seconds.
4. Contact the Direct Marketing Association to have your name removed from telephone solicitation lists. Write to **Telephone Preference Service, c/o Direct Marketing Association, P.O. Box 9014, Farmingdale, NY 11735-9014.**
5. Call the appropriate number highlighted on the top of the previous page to have your name removed–at no charge–from lists that our company leases to other firms. Customers with nonlisted or nonpublished numbers are never included on the lists we lease.
6. Do not give your telephone credit card number to anyone who calls and asks for the number.

Telephone Safety Tips

Your telephone is one of the safest appliances in your home or office, but there are times when you should be careful using it.

1. Don't use the telephone in the bathtub, shower or swimming pool. Dropping the phone into water could cause a shock.
2. Avoid using the telephone during electrical storms. U S WEST Communications uses protective measures to limit electrical surges from entering your home or office, but absolute protection from lightning is impossible.
3. If you suspect a gas leak, use a telephone away from the suspected area to report it. The telephone's electrical components could create a tiny spark when you dial. Although unlikely, that spark could ignite heavy concentrations of gas.

If You Receive Obscene or Harassing Phone Calls

It's against the law to make obscene, threatening or anonymous phone calls. Telephone harassment is a crime. Penalties include imprisonment and/or a fine. Call your U S WEST Communications service representative at 1 800 541-3386 for a free brochure on how to handle these types of phone calls.

Emergency Calls Have Priority on Party Lines

State law says you MUST immediately yield the use of a party line to anyone saying the line is needed for an emergency call. An emergency is any situation in which property or human safety is in jeopardy and emergency service personnel must be summoned.

It's against the law to gain control of a party line by falsely stating that an emergency call needs to be made. Penalties for violating party line laws include fines and/or imprisonment.

Directory Errors and Omissions

U S WEST Communications' liability due to errors in or omissions of directory listings shall be limited to and satisfied by an amount not exceeding one-half of the local exchange service charges (lines or trunks if PBX-CENTREX) for the service affected for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listings.

This tariff is on file with the Iowa Utilities Board and is also available for review at your telephone company. U S WEST Communications has attempted to publish information that is current and accurate. However, the company cannot guarantee errors will not occur. The company is not responsible for the accuracy of material supplied by its subscribers. In no event does U S WEST Communications assume any responsibility to notify directory users of any error or omission.

Consumer Tips

U S WEST Communications has redesigned your phone bill so that it is easier to read and handle. Because the new bill has fewer pages, it is also easier on the environment. These changes reflect our continuing effort to respond to our customers' concerns and feedback.

Paying Your Bill

Make One Payment

Although your bill may include charges from several different companies, you should make your entire payment payable to U S WEST Communications. Unless otherwise required by law, tariff or commission order, partial payments received without customer direction will automatically be prorated by U S WEST based on the ratio of the amount due each company to the total amount due. Customers who are unable to pay in full the amounts due for the telephone services rendered, may designate that partial payments are to be applied to charges for particular services by calling the U S WEST Business Office at the number listed on this page.

Payments Should be Received by the Due Date Listed on Your Bill

The due date on your bill applies to current charges. There is no implied extension on any previous agreement or notice regarding payment of past due charges.

You May Prefer Our Automatic Payment Plan

Troubleshooting & Repair

Why won't my phone work?

That depends on whether the problem is in your telephone set, in the wiring inside your home or office, or in the outside lines and switching equipment that U S WEST Communications uses to provide you with service. Simple tests can help you determine whether to call U S WEST Communications or another company for assistance. These tests may save you time and money. If you have a party line, call the repair service number for further instructions.

How To Troubleshoot

Check to make sure all telephones are hung up.

Unplug Phones

If you have a phone that doesn't unplug, contact the company that sold or leased it to you for directions on how to remove it.

Outlet Test

If you have two or more telephone outlets in your home, try each phone one at a time in each outlet. If one phone doesn't work anywhere you probably have a phone equipment problem.

1 **Contact the Manufacturer**

If it doesn't work in a particular jack, you probably have a jack problem.

2 **Contact U S WEST Communications or an independent contractor repair expert.**

If none of your phones work in any jack, the problem may be in the U S WEST Communications line.

3 **Contact U S WEST Communications 24 Hour Repair Service Hotline**

Accessories

If you have phone accessories—such as answering machines, cordless phones, a security system, or night bells—make sure that the equipment is working.

4 **The problem may be with the accessories.**

Some Other Helpful Tips

If you hear noise on your line

It may be caused by the weather, aerial satellites, poor grounding or other conditions that are only temporary. Wait until the weather conditions change.

The interference may be caused by radio frequency signals from amateur, citizens band (CB) and AM/FM broadcast stations. The installation of a modular filter, obtainable from most stores selling telephone equipment, may help. Contact your equipment supplier for assistance with these problems.

If you hear a rapid busy signal

While making a local or long distance call, it means that all circuits are busy. Try again later.

If the problem is in your telephone set:

Follow the instructions on your warranty or contact your equipment retailer.

U S WEST Communications cannot repair your telephone equipment.

If the problem is in your jack or the wire that runs through your home or office:

You have three options:

Call U S WEST Communications 24-Hour Reporting Hotline (Home:1 800 573-1311, Business:1 800 954-1211). If you subscribe to one of our optional wire maintenance plans, we will repair your jack or inside wiring at no charge. If you don't subscribe, we will still be happy to repair the problem, but we will have to charge you for labor and materials.

Hire any independent contractor or home repair expert to repair your jack or inside wiring.

You can repair the problem yourself.

If the problem is in U S WEST Communications' outside lines or switching equipment:

Call U S WEST Communications 24-Hour Reporting Hotline. See the number at the top of the page.

A short tone signals that another person is trying to call you when you are on the phone. You can put one call on hold while handling the second call, or alternate between the two.

To Use Call Waiting

1. When you hear a brief tone, quickly press and release the receiver button on your phone. Answer the second call.
2. To return to the first call or alternate between calls, quickly press and release the receiver button each time.
3. You may also answer the waiting call by hanging up and waiting for the phone to ring.
4. To cancel either call, simply hang up. When your phone rings again, you'll be connected with the person who's still on the line.

To Cancel Call Waiting Per Call

1. Before making your call, push "*70" on your Touchtone phone (or dial "1170" on your rotary dial phone). You will hear 3 short tones followed by a dial tone.
2. Place your call.
3. Call Waiting is automatically restored when you hang up.

If you also have Three-Way Calling, you can turn off Call Waiting during a call. Here's how:

1. Firmly depress and release the receiver button on your phone during your conversation.
2. Push "*70" on your Touchtone phone (or dial "1170" on your rotary dial phone).
3. Push the receiver button again to continue your conversation without interruption. Call Waiting will not work until you hang up.

Caller ID

Lets you know who is calling before you answer the phone. Caller ID requires a display unit which will also store names and telephone numbers of recent callers.

To Use Caller ID

1. Once your Caller ID service is activated, just follow the instructions with your display unit to install and operate.
2. Calls marked "PRIVATE" or 'ANONYMOUS" are from callers who have chosen to block delivery of their name and number.

To Block Anonymous Calls

1. Use Anonymous Call Rejection, a free service for Caller ID customers, by lifting the receiver and dialing *77 (rotary 1177).
2. Anonymous Call Rejection informs callers who have blocked their name and number that the party they are trying to reach does not accept blocked calls. The blocked caller is informed that they can unblock their call by hanging up, picking up the receiver, dialing *82 (rotary 1182) and redialing the telephone number.
3. To cancel Anonymous Call Rejection, lift the receiver and dial *87 (rotary 1187).

Call Waiting ID

Has all the benefits of Caller ID and it also lets you identify your Call Waiting calls before you answer. Call Waiting ID requires the use of a special display unit.

To Use Call Waiting ID

1. Once your Call Waiting ID service is activated, just follow the instructions with your display unit to install and operate.
2. The Call Waiting and Caller ID section of these instructions provide more information on how to operate these services.

Long Distance Calling

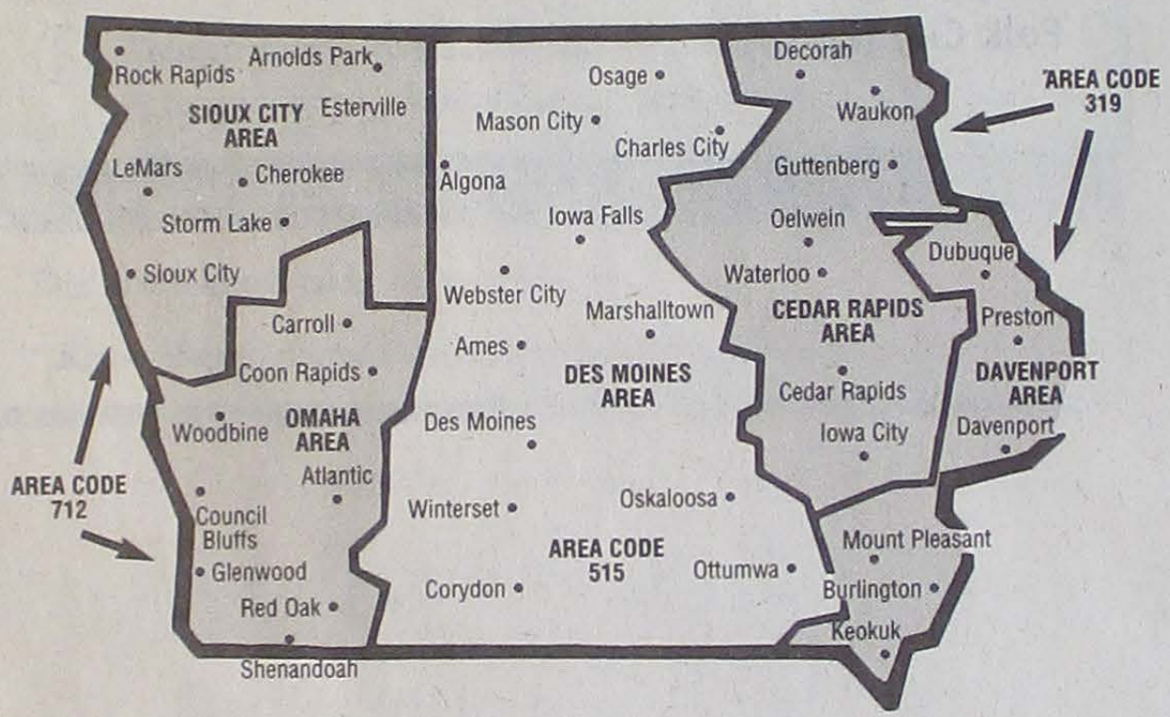

Calling Long Distance within Iowa

Iowa is divided into five long distance calling areas. (See map on this page.)

*U S WEST Communications provides local and long distance calling service within the boundaries of these areas, but not between them.**

Make long distance calls within your calling area by dialing 1 + area code + the telephone number. U S WEST Communications will charge you for the call. Use another long distance company to make calls between these areas. That company will charge you for those calls and can provide you with rate information and dialing instructions.

** Local phone service may be provided by other telephone companies in these areas*

Dialing Plan For Iowa

You now need to include the area code between the 1 and the seven digit telephone number on every long distance call you make. This includes long distance calls made within your own area code. Dialing of local calls is not affected. This change is required to make new area codes available to meet the increasing demand for telephone numbers throughout the U.S. and Canada.

Directory Assistance*

Within your local calling area	1 + 411
Outside your local calling area	1+(area code)+555-1212

** A charge may apply for this service.*

Long Distance Companies In Your Area

Can be found in the U S WEST Direct Yellow Pages. *Each company can provide information about its rates, calling areas, and dialing instructions.*

Other Types of Long Distance Calls

Calling Long Distance Outside Your Calling Area

In all but a few cases, U S WEST Communications does not provide long distance service between states or between sections of the same state that have different calling areas. (See map on this page.) Contact your long distance company for rates and dialing instructions.

International Calls

Contact your long distance company for information on international calling rates and dialing instructions. International area codes are listed on page 23.

Long Distance Calling

Discounts Within Your Calling Area

Direct Dialing Saves Money

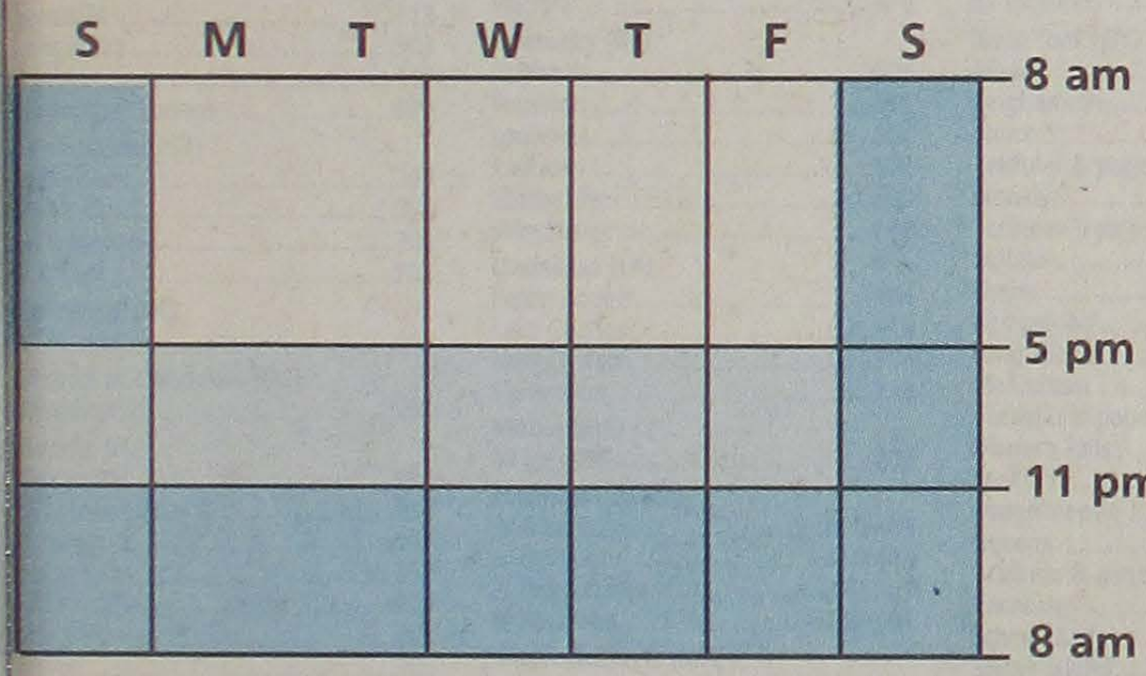

Dial your own long distance calls to pay the lowest rate and only for the minutes you talk. There's a one-minute minimum. Dial "0" for information on U S WEST Communications long distance rates.

Discount Calling Periods

The chart below shows the times you can get a discount on long distance calls within your calling area. Discounts apply to all calls. Those requiring operator assistance will include an additional charge that does not qualify for a time-of-day discount. Save money by calling evenings, nights, weekends, and selected holidays (New Year's Day, July 4, Labor Day, Thanksgiving and Christmas). If you start your call during one rate period and hang up during another, your call will be prorated between the two.

Discount Calling Plans

All Time® Volume Discounts may also help you save money. Business and residence customers who subscribe to this optional plan, get volume discounts on calls made within their U S WEST Communications calling area. Call 1 800 244-1111 (for home) or 1 800 603-6000 (for business) for more information.

Calling Card Calls

If you have a U S WEST Communications Calling Card, you can make local and long distance calls and charge them to your regular monthly bill. Next to direct dialing, using your Calling Card is the least expensive way to call. Call 1 800 244-1111 (for home) or 1 800 603-6000 (for business) for more information.

The U S WEST Communications Calling Card is accepted by many long distance companies for making calls outside your U S WEST Communications long distance calling area. Here's how to make a Calling Card call to a number within your long distance area:

- From a push-button phone with Touchtone service: Dial 0 + area code + the telephone number, wait for the tone, then dial your Calling Card number.
- From a rotary dial phone: Dial 0 + area code + the telephone number, wait for the operator to answer, say you're placing a Calling Card call, and give your card number.
- To the same telephone number that's on your Calling Card: Dial 0 + area code + the telephone number, wait for the tone, then dial your four-digit personal identification number (the last four numbers on your card). For calls made from another calling area, dial your area code before you dial your phone number.

Rate: Direct dial rate + 60¢ service charge.

Protect Your Card Against Fraud:

1. Use a card reader phone whenever available.
2. Position yourself so that people standing near you cannot watch you dial or hear you say your personal identification number.
3. Never give your personal identification number to anyone calling you, even if they identify themselves as phone company employees, law enforcement agency representatives, or long distance security personnel.
4. Examine your monthly bill.
5. Call the appropriate number on the back of your Security Card immediately if you suspect fraud on your card.

Long Distance Calling

Using The Operator To Make Calls

Within Your Calling Area

There is an additional charge for calls requiring operator assistance. They are more expensive than Calling Card calls or calls dialed directly from your home or office.

Collect Calls

Dial 0 + area code + the number. Tell the operator you're making a collect call. The operator will hang up when someone at the number you've called accepts the charges.

Rate: Direct dial rate + $1.30 station call or $3.50 person-to person calls service charge.

Calls Charged to a Third Number

Dial 0 + area code + the number. Tell the operator you want to charge your call to a third number. If you're calling from a public (pay) phone, the operator will call the third number to make sure the charges will be accepted. The call won't go through if the operator can't get approval.

Rate: Direct dial rate + $1.30 station call or $3.50 person-to person calls service charge.

Person-to-Person Calls

Dial 0 + area code + the number. Tell the operator you're making a person-to-person call to a specific person. The operator will hang up and charge you for the call only if that specific person answers. You can place a person-to-person call when you call collect, use your U S WEST Communications Calling Card, or charge your call to a third number.

Rate: Direct dial rate + $3.50 calls service charge.

If You Want to Know How Much Your Call Will Cost

Dial 0 + the long distance number. Tell the operator you want "time and charges." When you finish the call, a computer voice will return to the line to tell you what you'll be charged.

Operators Can Check a Busy Line

In most areas, to determine if someone is actually speaking on the line.
Rate: Busy verification $1.50. Busy verification and interrupt $3.00.

Outside of Your Calling Area

Contact your long distance company to find out how to use an operator to place calls to other area codes.

Many Companies Have Operators

When away from home, you can choose the long distance company you want to handle your operator-assisted calls. Many companies provide collect, person-to-person, third-number billed and credit card services. Their rates may vary. You may ask any operator for company identification and rate information before beginning your call. If the operator does not represent the company you want, or if you are not satisfied with the rates, you may choose another way to place your call.

International Area Codes

***Contact your long distance company** for instructions on how to place an international call. Here is a list of the country and city (routing) codes that you may be asked for. Your long distance company also can provide you with information on calls to countries not listed here.*

If a direct-dialed call to a number longer than 12 digits (including country code) won't go through, ask your international long distance company for assistance.

The number following the bold location name is the "Country Code." Numbers beside cities are "City Codes." The number to the right of the country name is the time difference.

TD = Time Difference from Central Standard Time.

Area History and Attractions

Ames lies near the geographical center of Iowa, about 35 miles north of the state capital at Des Moines. It is the home of Iowa State University. The area boasts numerous historical, cultural, and recreational attractions.

On December 28, 1846, Iowa was admitted as the 29th state in the Union. The Iowa Sesquicentennial (150th anniversary) officially began in 1995 and will continue through Statehood Day in 1996. On Dec. 28, the official 150th milestone of Iowa's entry into the Union, Des Moines will host a grand birthday celebration on the State Capitol grounds.

History

Ames, located in the heart of rich agricultural land, was selected as the site for the Iowa Agricultural College and Model Farm, created through a bill passed by the Iowa General Assembly in 1858.

The college became a land-grant institution under the 1863 federal Morrill Act, was renamed the Iowa State College of Agriculture and Mechanic Arts in 1898, and became Iowa State University (ISU) of Science and Technology in 1959.

Ames was founded in 1864 in anticipation of the arrival of the Cedar Rapids and Missouri Railroad. The president of the railroad, John Blair, named the settlement after Massachusetts Congressman Oakes Ames, a promoter of the railroad system.

Ames was incorporated in 1870 with a population of slightly more than 800. The original town consisted of a 12-block area extending from the railroad north to 9th Street. The eastern and western borders were Duff and Burnett avenues. With increasing rail shipments of farm products and the growth of the college, Ames prospered.

Research activities on the ISU campus during World War II led to the establishment of the Ames Laboratory. ISU's resources have been instrumental in attracting other government agencies and national industries. Ames is the largest city in Story County and has a population of more than 48,000, including student enrollment at ISU.

Parks and Recreation

Ames recreation facilities include ballfields, an ice-skating center, tennis courts, bicycle paths, golf courses, swimming pools, and nature trails. Summer concerts are held in **Municipal Band Shell Park** at 5th and Duff. The Ames Parks and Recreation Department offers a year-round schedule of activities ranging from instructional classes to organized sports.

County parks and conservation units, Iowa State University's horticulture gardens and arboretum, and a preserved natural prairie within the city limits are additional recreation sites.

Sports enthusiasts may enjoy ISU's varsity competition in the Big 12 Conference. The ISU Cyclones play basketball in the James H. Hilton Coliseum and football in ISU's Cyclone Stadium/Jack Trice Field.

432-1852
This scenic natural setting of sandstone ledges offers places of quiet beauty. There are 17 miles of hiking trails, fishing spots on the Des Moines River, and electric and nonelectric campsites.

Story County Conservation Board
56461 180th St., Ames
232-2516
The board manages nearly 2,400 acres of parks and natural areas in central Iowa. The county park system is divided into two management units.

Indian Creek Conservation Unit is located two miles south of Hwy. 30 and one mile west of Colo. This area includes Hickory Grove Park, Praeri Rail Trail, Dakins Lake, and Robison Wildlife Acres. Popular activities include boating, fishing, camping, cross-country skiing, and snowmobiling.

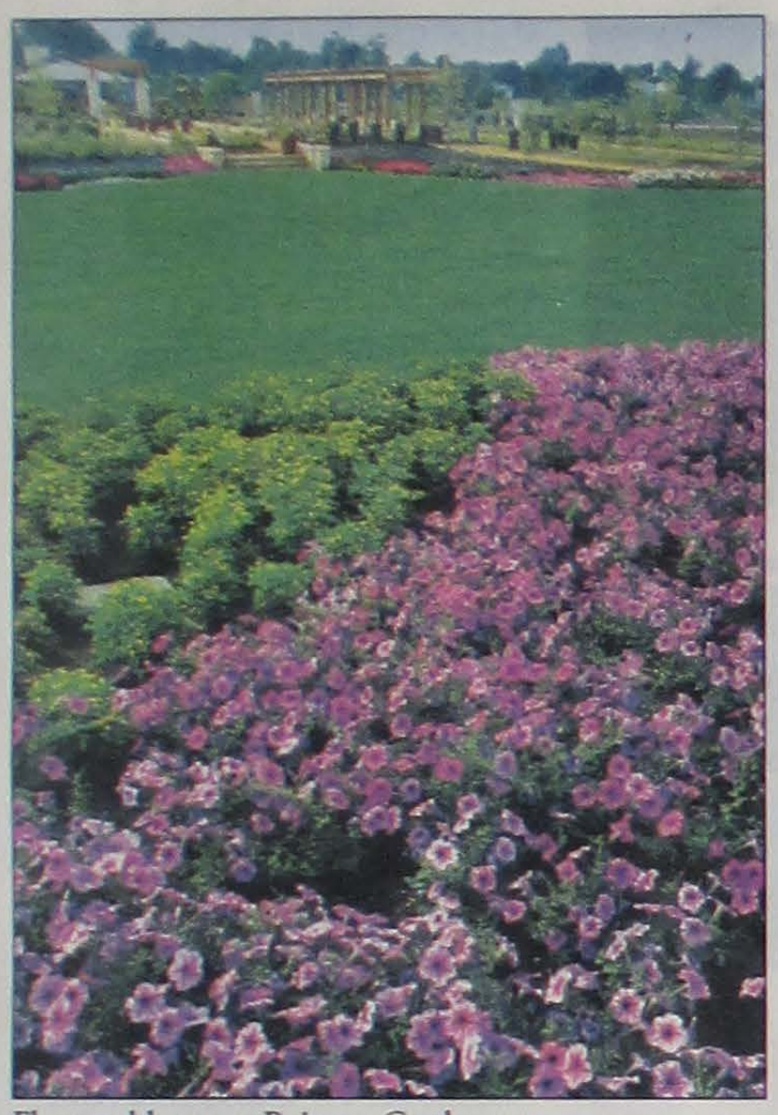

Skunk Creek Conservation Unit, four miles northeast of Ames, includes McFarland Park, Peterson Park, the Skunk River Greenbelt, Cambridge Pond, Soper's Mill, Sleepy Hollow, Christiansen Forest Preserve, Wakefield Woods, and various prairies and marshes.

When complete, the **Heart of Iowa Trail** will pass through southern Story and Marshall counties and connect seven small communities. Part of the trail has been surfaced with compacted limestone; the remainder is under construction.

ISU Campus Attractions

ISU has many attractions in addition to its educational and research facilities. ISU is the birthplace of the electronic digital computer, the **Atanasoff-Berry Computer**, which was designed and built in the late 1930s by mathematics and physics professor John Vincent Atanasoff and graduate student Clifford Berry. Two campus displays honor them: one inside the south entrance of the physics building and one in the atrium of the Durham Center.

The campus provides a backdrop for a variety of art spanning decades. Sculptor **Christian Petersen** devoted 20 years on campus to the creation of numerous pieces.

Grant Wood's vision of the settlement of Iowa is depicted in murals at the Parks Library. A contemporary exploration of the ethics of genetic manipulation is featured at the Molecular Biology Building.

Historical markers are located throughout the main campus. When classes are in session, the 50 bells of the **Campanile** provide daily noon-hour concerts.

Campus maps are available in the Memorial Union and the ISU information booth located on Elwood Drive on the east side of the Iowa State Center.

Created as the Iowa Agricultural College and Model Farm by the Iowa General Assembly in 1858, the school became a land-grant college under the terms of the federal Morrill Act in 1863 and held its first classes in 1869.

The university was a pioneer in the establishment of agricultural studies on the college level and is the home of the nation's oldest state veterinary school.

Phone Book Recycling

U S WEST Direct conducts phone book recycling events during the time we deliver our new directories. During this annual event, **U S WEST Direct** places bins at convenient locations to collect your outdated books. Look in your new phone book or your mailbox for the card that gives specific details.

Did you know that every year **U S WEST Direct** recycles your outdated phone book into a new directory through our closed-loop process? If your phone book leaves this process, it may be turned into another paper product on a one-time basis — but we lose the opportunity to reuse this valuable resource continually. Only when your phone book is recycled through our annual recycling event can we see these results year after year. Please continue to participate in the **U S WEST Direct** annual recycling event.

Emergency Preparedness Information

The keys to coping with an emergency are awareness and planning. The guidelines on these pages are designed to help residents prepare for and live through emergencies that may occur in this area. For more information contact the local city or county emergency manager, civil defense director, or the local chapter of the American Red Cross.

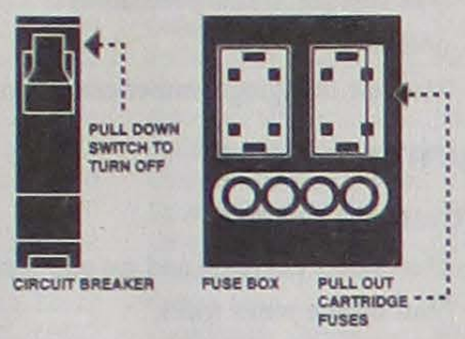

Be Prepared

- Schedule family conferences to discuss emergency procedures; hold practice drills.
- Post and memorize emergency telephone numbers (including poison control).
- Assemble and store a survival kit. (See sidebar.)
- Learn first aid.
- Establish a location where the family should reunite if separated.
- Arrange for a friend or relative in another town to be a communication contact for the extended family.
- Learn the emergency plans of the family's schools, day-care centers, clubs, and workplaces.
- Tune in to daily weather forecasts and be alert to changing conditions. The Emergency Broadcast System on radio and TV stations will announce a WATCH if an emergency situation is expected and a WARNING if it is imminent or in progress.
- Learn emergency food and water procedures. (See sidebar.)
- Determine an evacuation route and alternates.
- Know where main utility switches are located and learn how to turn them off if lines rupture and trained technicians are unavailable.

Utilities

Electricity

- Turn off electricity ONLY if you see sparks or a fallen wire.
- Find the main circuit box, usually on the outside of the house. (See diagram above.)
- Locate the main circuit breaker or fuse. Switch the circuit breaker to the off position, or pull out the fuse.
- Have electrical service restored by a local supplier or contractor. See **The U S WEST Direct Yellow Pages Index** for applicable headings.

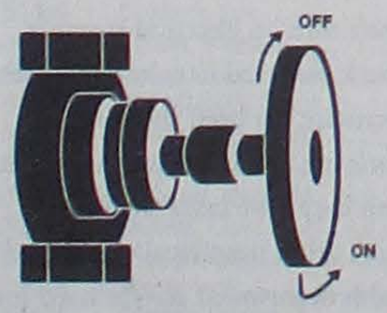

Main Circuit/Fuse Box

Gas

- If you smell gas, evacuate the house. Don't use the phone, light switches, or electrical appliances, or do anything that will cause sparks.
- Go to a phone booth or neighbor's house and report the leak to the gas company.
- Let the gas company repair the leak and turn the gas back on. Consult **The U S WEST Direct Yellow Pages** for a natural gas or propane supplier near you.

Water

- Find the main water shut-off valve inside the house (located where the water line enters the building). Turn the valve in the direction of the arrow, usually clockwise. (See diagram below.)
- If necessary (and possible), shut off the main water valve outside your home. It may be next to a meter in a concrete box in the sidewalk.
- When the danger has passed, have water service restored by a local supplier. Check **The U S WEST Direct Yellow Pages** listings.

Water Main Valve

Emergency Food and Water Procedures

- Be prepared to take care of yourself and your family for up to five days.
- Take emergency drinking water from ice cubes, water heater, and canned fruits and vegetables.
- Don't drink unbottled water (including municipal tap water) until it has been strained with a clean cloth and treated. To treat water add ten drops of chlorine bleach to each gallon of water, mix well, and let stand for about 30 minutes.
- Freezer foods will last from 48 to 72 hours if the freezer is full and the door stays closed.
- Eat perishable foods first.
- Discard all open food and beverages that may have been contaminated.
- Cook on portable grills, but only outdoors.

Survival Kit

- Water (one gallon per person per day) and chlorine bleach to purify it. Store water in sealed, unbreakable containers. Mark the storage date and replace every six months.
- Emergency food and beverage supply (nonperishable food and juices).
- A hand can opener, cooking equipment, fuel for alternate cooking and heating devices.
- A change of clothing for each person in the family, rain gear, sturdy shoes.
- Blankets or sleeping bags.
- First aid kit, prescription medicine, an extra pair of eyeglasses.
- Flashlights, portable radio with batteries, matches, candles.
- Credit cards, cash, an extra set of car keys.
- A list of important family information including the style and serial numbers of medical devices such as pacemakers.
- Special needs for infants, the elderly, and disabled.
- Sanitation supplies (plastic trash bags, soap, toothbrush and paste, toilet paper, newspaper, a camp shovel.

The following are guidelines that may help save lives during a specific emergency.

Severe Thunderstorms

Hail

Large hail can cause serious injury, so avoid the outdoors while a storm is in progress. Protect gardens, bring pets inside, and shelter vehicles to prevent damage.

Lightning

Lightning kills more people in the United States than any other natural hazard. It may strike some miles from the parent cloud.

- The best place to be in a lightning storm is in a building. A vehicle (with a solid, not convertible, roof) is second choice.
- Don't use the telephone except for emergencies.
- If you are caught outdoors, avoid being the highest object in the area. Stay away from hilltops, lone trees, and telephone poles. In a forest, seek shelter in a low area under a thick growth of small trees.
- Do not enter a small structure in the open.
- Get off or away from open water.
- Abandon metal vehicles such as tractors, motorcycles, bicycles, and golf carts. Drop golf clubs and remove golf shoes. Stay away from wire fences, clotheslines, metal pipes, and rails. If you are in a group in the open, spread out.
- If suitable shelter is not available, seek a ravine or valley, and drop to the ground in a crouched position, head bent and hands on knees. Do not lie flat.
- If you are caught in a flat, open spot and feel your hair about to stand on end or your skin begin to tingle, lightning may be about to strike you. Assume the crouched position immediately.

Flash Floods

Flash floods often occur without warning after heavy rainfall upstream. Drainage canals, streambeds, canyons, and areas downstream from a dam are potential flood areas, and roads and trails that parallel these waterways may be swept away by floodwaters. When you realize a flash flood is coming, act quickly.

- Leave areas with a high potential for flooding.
- Go to high ground immediately.
- Do not drive through already flooded areas. Shallow, swiftly flowing water can sweep a car from the road and disguise a washed-out roadbed.
- Use greater caution at night.
- Do not attempt to cross a flowing stream on foot where the water is above your knees.

Emergency Preparedness Information

Winter Storms

Preparation

- Winterize your home.
- Stay posted on weather conditions.
- Keep a survival kit on hand at home. (See first emergency page.)
- Secure an alternate heat source in case utilities are cut off (wood-burning fireplace, well-vented wood or coal stove, camp stove).
- Keep vehicles well maintained so they start and run efficiently in the cold.
- Learn how to change a tire.
- When traveling, take along extra warm clothing, blankets, and nonperishable food and beverages. Keep a shovel, ice/snow scraper, tire chains, and sand or salt in the car trunk. At all times, carry a first aid kit and an emergency kit with flares, a spare tire, jack, lug wrench, a flashlight with extra batteries, reflectors, and jumper cables.

When Isolated at Home

- Stay indoors unless you're in top physical condition. If you must go out, avoid overexertion. Snow shoveling is a major cause of winter storm deaths.
- Dress warmly, in layers; sleep with a wool hat on to retain body heat; use numerous thin blankets instead of one heavy cover.
- Close off rooms that are nonessential, and hang blankets over windows at night.
- If there is a power failure, engage the alternate heat source and plan to stay in the room where it's located. Don't let it overheat. Fill liquid heating devices outdoors.
- Turn off light switches and unplug appliances to avoid a surge of electricity when power is restored.
- Travel only if necessary, and then only during daylight and on major roads.
- Do not travel alone.
- If you leave, let someone know your plans.

When Caught In a Vehicle

- Listen to emergency reports on the radio.
- Obey emergency instructions from public safety officials.
- Don't leave the vehicle for help unless help is in sight.
- Ensure proper ventilation while running the engine.
- Signal trouble by raising the hood, tying a cloth on the antenna, or turning on flashers.
- Don't burn anything in the vehicle.

Earthquakes

Preparation

- Secure shelves; brace top-heavy furniture.
- Store breakables and heavy objects on lower shelves.
- Strap water heater and gas appliances to the wall.
- Block the wheels/feet on large appliances such as refrigerators so they won't slide.
- Put flexible connectors on gas appliances.

During an Earthquake

At Home

- Stay indoors; turn off stove and douse fires.
- Crouch under a heavy table or desk.
- If there is no protective furniture, crouch against an inside doorway or corner.

In a Store or Office Building

- Don't run for the exit (in case of stampede). Stay on the same floor. Avoid windows.
- Crouch under a desk, bench, or table.
- Do not use the elevator.

On Foot

- Stay outside, in the open, away from trees, buildings, utility poles and lines, and signs.
- If you are near a building, duck into a doorway. Don't enter the building.

In a Vehicle

Pull to the side of the road as quickly as possible, but keep away from trees, buildings, utility poles and lines, signs, and bridges.

After an Earthquake

- Call for medical assistance if there is an emergency. Don't attempt to move severely injured persons unless they are in danger of further injury.
- Use phones only to report emergencies.
- Put out small fires. Don't use matches, candles, electrical switches, or appliances in case there is a gas leak; use flashlights.
- Turn off main utility outlets only if the lines are ruptured and trained technicians are unavailable.
- Turn on a radio for instructions.
- Clean up dangerous spills.

Later

- Watch for falling objects when you leave or enter buildings. Stay out of severely damaged buildings.
- Don't go sightseeing; you may hamper emergency efforts.
- Keep your distance from downed utility lines or any object in contact with them.
- Be prepared for aftershocks.

Floods

Before a Flood

- Know your neighborhood flood history.
- Consider purchasing flood insurance.
- Obtain sandbags, plastic sheeting, lumber, and towels.
- Install check valves in sewer traps or buy large stoppers to plug sinks, showers, tubs.
- Fuel vehicles in case evacuation is necessary.
- Monitor changing weather conditions.

During a Flood

If there is time

- Disconnect electrical and gas appliances.
- Shut off the water main.
- Bring outdoor items inside.
- Round up pets.
- Move valuables/essentials to upper floors.
- Stack sandbags away from the building.

Evacuation

- Use travel routes recommended by local authorities.
- Keep a radio on for news and updates.
- Watch for flooding at bridges and low areas.
- Don't drive over flooded roads. It's impossible to tell how deep the water is, or if sections of the roadway have been washed out.
- Don't try to cross water flowing above your knees.
- Passengers should abandon a stalled vehicle and move as a group to higher ground.

After a Flood

- Return home when authorities say it is safe.
- Let qualified specialists inspect your home and make repairs to structural damage and utility breaks before you re-enter.
- When inspecting your home for the first time, use a flashlight, not a torch or lantern. Sniff for gas leaks.
- Wear rubber-soled shoes and rubber gloves in case of severed electrical lines.
- Don't turn on electrical switches.
- Check electrical circuits only when electricity has been shut off.
- Don't use flooded electrical appliances until they have been repaired.
- Don't drink municipal water until the health department has declared it safe.
- Don't rush to pump out a flooded basement.

Tornadoes

Preparation

- Mobile home owners should have a licensed contractor tie down their units.
- Bring portable furniture, equipment, and pets inside if thunderstorms are expected.

If a Tornado Warning Is Issued

If a tornado warning is issued, or you hear the roar of a tornado, follow these guidelines.

In a Home

- Stay indoors.
- Immediately go to the lowest level in the building. Seek out an interior hallway or a small, windowless interior room.
- Crouch under a table, desk, or bench.
- If there is no protective furniture, crouch against an interior doorway or corner.

In a Mobile Home

Do not remain in a mobile home. Go to a community shelter, if available.

In a Store or Office Building

- Don't run for the exit (in case of stampede). Stay on the same floor. Avoid windows.
- Crouch under a desk, bench, or table.
- Do not use the elevator.

On Foot

- Go inside the nearest sturdy building. If there's no time to enter, crouch next to it.
- If there are no buildings nearby, lie flat in the closest ditch, ravine, or culvert. Cover your head with your arms.

In a Vehicle

- Don't try to outrun a tornado. Leave the vehicle and enter the nearest building, or lie in a ditch, hands covering your head.

After a Tornado

- Call for medical assistance if there is an emergency. Don't attempt to move injured persons unless they are in immediate danger.
- Use phones only to report emergencies.
- Put out small fires. Don't use matches, candles, electrical switches, or appliances in case of a gas leak. Rely on flashlights.
- Call trained technicians if utility lines are ruptured.
- Turn on a battery-powered radio or vehicle radio for information and instructions.
- Put on heavy shoes and gloves for cleaning.

How U S WEST Direct closes the loop in phone book recycling

The One That Gets Used™ . . . Gets Reused

1 Each year, U S WEST Direct delivers phone books printed on recycled paper, made from old phone books, to homes and businesses in its 14-state service area.

2 U S WEST Direct partners with other environmentally responsible businesses to provide recycling drop-off locations for collection of outdated U S WEST Direct phone books. These convenient locations make it easy for people to participate in the U S WEST Direct closed-loop recycling process.

3 The outdated phone books, collected through our recycling events, are transported to a central warehouse where they are prepared for shipment. Millions of pounds of old phone books are loaded into trucks and trains and shipped to a recycler for recycling.

4 Trucks and trains make regular deliveries to the recycling mill providing them with old phone books to use as raw material for the manufacturing of recycled directory paper.

5 The recycler processes the old phone books into paper pulp, removing inks, dyes, and glue. The recycled pulp is reinforced with stronger pulp. The pulp is then manufactured into recycled paper that meets our standards for our new phone books.

6 Rolls of recycled white and yellow paper are then shipped to printers and printed with current residential, business, and community information. The resulting U S WEST Direct phone books provide the public with the most widely used source of information available 24 hours a day, every day of the year.

7 These new U S WEST Direct phone books are then delivered to homes and businesses throughout your community and this closed-loop recycling process begins again.

"It's What To Do When You Finish a Good Book"®...Recycle!

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.

"The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa. A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. Don't hesitate to ask questions when planning a purchase. Most business-people want you to be a satisfied customer who will do business with them again.

Some businesses may include such words as 'guarantee', 'authorized', 'certified', 'accredited' as part of their firm names. These may not assure a specific authorization, certification, or accreditation in connection with their business. If in doubt, ask the business or company for details.

2. Stains - All stains are specially treated.
3. Furniture - Is carefully moved & replaced
4. Fast Drying - Unique Rapid Dry System...
5. Using The Most Thorough-Healthy Cleaning Method.
Some cleaning methods use chemicals that leave a residue on your carpet. That doesn't get the dirt out, just covers it up. My method doesn't leave a residue and is very powerful. It cleans way down to the base of your carpets and will look brand new again.
6. Stays clean longer since we clean all the way down to the base of your carpet. Your carpet will stay clean looking longer
7. Only certified technicians.

The One That Gets Used.

How to Keep Your Kids Free of Drugs.

Rule #2

Take a Stand.

Perhaps the single biggest deterrent to drug use is talking with your kids about the subject – early, often and specifically. Don't despair if it doesn't seem to register. Weeks or months later you'll very likely hear your words coming back to you. To learn more about how to talk to your kids about drugs, call for a free parent's handbook.

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.

Dr. Dean Bridges

Warning! If You're Suffering From An Auto Accident Injury (whiplash), Don't Call Any Doctor Until You Read This.

Did you know there are doctors who specialize in treating people who suffer from auto accident injuries?

It's true. You see, working with motor vehicle accident victims requires a lot of special examination and treatment to help your problem. It also requires a lot of special documentation for insurance companies and attorneys.

Dr. John R. Moore, D.C., C.C..S.P.

It's important that your condition be very carefully and properly treated for maximum recovery. It also has to be thoroughly documented, because what is done and recorded can make the difference in the results of your case.

In addition, the doctor may have to make court appearances or depositions on your behalf. Many physicians aren't willing, or just are not an expert in this.

Fortunately, there is a clinic in Ames that specializes in motor vehicle accident injuries. In addition, they are experts in caring for nerve-muscle-joint problems, especially those of the neck, back, legs, and arms.

Return on Investment (ROI) Worksheet

Measure the results of your Yellow Pages advertising using the 7 steps on this worksheet.

1. Enter the number of calls to make one sale _____

On average, how many calls or visits from prospects does it take to make one sale?

2. Enter your average gross profit per sale $_____

(Average sale minus direct costs)
On average, how much profit do you make on any one sale?
Take the sales price minus the direct costs you pay for the product or service you provide. Do not include overhead costs; such as rent, office supplies, salaries, etc.

3. Yellow Pages investment per month $_____

How much do you estimate you will be investing in Yellow Pages advertising per month?

4. Enter your desired gross profit from this advertising, calculated as follows:

ROI expectation per month of_____% =
return of your $_____ initial investment (Line 3)
Plus $_____More (Line 3 x_____%) = $_____

In making any investment, you would expect to receive your original investment back plus a reasonable return. Advertising should be evaluated the same way. First, determine what rate of return will work for your business. Then calculate the total monthly gross profit needed to meet your investment goal.

For example, if the investment on line 3 is $100.
and you require a 200% return on that investment, you would fill in the blanks as follows:

ROI expectation per month of 200% = return of $100 investment plus $200 more = $300.
$300 would be the amount entered on line 4. Line 4 represents the total amount of gross profit you need to generate from your advertising to consider the program successful.

5. Enter the number of sales per month to meet ROI expectation (Line 4 ÷ Line 2) _____

This number tells you how many sales you need from your Yellow Pages advertising to meet your ROI expectation.

6. Enter the number of calls per month to meet ROI expectation (Line 5 x Line 1) _____

This number tells you how many calls need to be generated from your Yellow Pages advertising to meet your ROI expectation.

7. Using the tracking form (on the following page), track and enter the number of calls you receive per month from your advertising _____

When this number is greater than the number entered on line 6 above, your Yellow Pages advertising has exceeded your ROI expectations.

Track Your Advertising Results

1. **Using the tracking form below, identify:**
   The page number(s) of your existing U S WEST Direct Yellow Pages advertising as well as those of other Yellow Pages publishers.

2. **For an entire week, when you get a call:**
   Please respond by saying, **"We are testing the effectiveness of our advertising. Did you get our telephone number from The Yellow Pages?"**

   If yes, ask ... **"What page number did you find our ad on?"**
   Enter the response you receive on the form below.

   If no, ask ... **"Where did you hear of us?"**
   Note in the lower section, designated for other advertising media.

   At the end of the week, total your weekly counts and calculate your monthly call volume in the column provided. You may want to track your results several times during the course of the year to account for seasonal or other variations in sales that may affect your business over a longer period.

JEWELL (ZIP CODE 50130)

U S WEST Communications

Your complete telephone number is needed on long distance calls, both to and from Jewell, and whenever you give your number to others. However, on local calls to other Jewell telephones, the first two numbers, 82, may be omitted.

HOW TO CALL ANOTHER PARTY ON YOUR LINE

Two-party customers dial 421. After dialing the number hang up. Your telephone and the called telephone will ring until the call is answered. When the ringing stops, remove receiver and start your conversation. If no answer, remove receiver for a few seconds and then replace it to stop the ringing.
